Old Business

6:45 PM – **[Update]** Back to Campus Task Force (10 minutes)

- We ran through how academic classes would be affected with the recent change in COVID restrictions, seems like no big effect within SOM
- Regarding day to day operations
 - Scott Hall Gym closed indefinitely - Mort Harris open though after a brief period of closure
 - Student Org Protocols
 - No food at any event
 - Service Learning is approved to still be in person, no more than 50 persons if outside, no more than 30 if inside
 - If your org is planning an event just for fun, has to be virtual
- Will revisit in Jan after break
- *Student ?* - How were the new rules enacted? What was the trigger metric if we are all vaccinated here at the SOM for the most part?
 - There remains a small cohort of unvaccinated and on campus individuals. This is the population they are regularly testing to survey positivity rates and setting new thresholds
- This doesn't make much sense? Why are we still tying this to the unvaccinated population when they are such a small percentage of those on campus at the SOM?
 - There are about 800 people across the campuses who are unvaccinated
 - Dr. Rajasekaran asked for numbers of unvaccinated from just the SOM and it sounds like there aren't enough people at the SOM unvaccinated to even get enough statistics to make an informed decision
 - Unfortunately, even though the SOM has a very high vaccination rate, they can't really make an exception for the SOM and not let other health professional schools in the same boat that are close to main campus (Nursing, Pharm), so it seems like a "we are all in this together" sort of policy
- GET YOUR FLU SHOT!! Starting in January, your screener won't work if you don't have your paperwork in. Of note, in the submission form, it says to be sure the picture of the

documentation you submit must contain your birthday, but the campus flu shot clinic ones did not have that information and it will still go through.

- GET YOUR BOOSTER!! To maintain compliance with University policy, documented booster shots must also be submitted using the same form as the flu shot one by the start of winter semester.
- Probably time for new student reps for this committee as we transition to dedicated
 - Victoria Badia can do it!
 - Encourage M1s to get involved! These kinds of committees are great intros to the business of admin communications
 - Arya Gaddam (M1 pres) will join as well

Executive Senate Reports

6:55 PM – [Exec. VP] External Committees update (10 minutes)

- Tech Committee
 - Finally setting up two factor authentication for students at the school and seems to be a sporadic, phased rollout
 - Hopefully will lead to less phishing
 - Working out kinks with it not remembering you
 - Working on A/V for the new student spaces
 - Working on setting up mics for zoom participants in various spaces!
- Curriculum Committee
 - Heard a lot this year from M1/2 reps about a lot of required activities that don't seem like the best use of their time
 - We are working to identify all of these sessions and then survey students about pros and cons of these types of events to present to admin
 - Clerkship stuff, working out with the back to campus taskforce what the protocol/policy is for missing clerkship for COVID quarantine. It is currently up to each clerkship director, but we feel at this point there really should be an established protocol going on years into this pandemic
- IJI
 - Gaining momentum with the general student body participating
 - Having a journal club soon!
 - Meeting with new DEI Dean Donovan Roy tomorrow
 - Will be revisiting the CNAA and going over long term plans and goals and asking for support
 - M2 is leading a project called "hidden curriculum..."
 - Working with the SJMEC to go through all the case studies and identifying race/ethnicity based biases in these learning materials
 - Check out Dr. Opara and friend's paper!
 - Should we advertise our general meetings to the whole student body?
 - We would be happy to put these in WW when you are ready!
- H&W
 - New M1 wants to bring back walk with a doc, but unfortunately the new COVID regulations probably will affect this
 - Working on some survey/study metrics regarding required virtual H&W events
 - Continuing with other usual initiatives in the future, pending COVID allowance; wellness days, yoga, etc.
- Professionalism

- Addressed specific feedback from M1s about P4 professionalism concerns. Students were unsure about how their behavior has been leading to citations, so we got clarification from Course Directors
- Can share a form to include in WW for citations and nominations
- Students can nominate themselves, peers, and faculty for PEARLS
