1. [Presentation]Andrea Westfall and Derek Deven-WSUSOM Social Media folks

- Office of Marketing and communications
- Wanted to discuss how students can get involved in the social media presence
- Most students get involved via take over and are always able to pitch new ideas.
 - They can also share photos/videos/reels
 - Always welcome to provide new content ideas as well
 - Please tag WSUSOM whenever applicable!!
 - Looking for SOM influencers
- Derek is looking to grow application numbers and do whatever possible to grow the interest in the SOM.
 - Contact info for Derek : hq4078@wayne.edu
 - Contact for Andrea: gd5273@wayne.edu
 - Main goal is to find content ideas from students and help andrea + connect with students.
- Question: if students want to do takeovers how do they contact
 - Just email andrea or derek and say what idea who have for a takeover, they have a 15 min call with you and talk through the idea and the day and you can get login info for the takeover.
 - Will be posting the advice to M1s in the upcoming weeks
- Idea Pitched: Interviewing new M1s on their first day and following up with them in a few months or the end of year
 - Thinking of doing something like that may be intimidating for some M1s, but others would be comfortable. Just have to find the right people.
- Student to Student recognition
 - Social media can play a huge role in promoting the wonderful things WSUSOM is doing.

6:10 PM – New Business (15 minutes)

1. [Discussion] Gender-neutral bathroom discussion (15 min)

- + - There are currently 2-3 gender neutral bathrooms on campus

- Idea is to help with promoting an inclusive environment that is accepting of gender identities
- The current signs are binary and don't include those who identify as non-binary.
- Talked briefly about converting multi-stalls to gender neutral
- Changing current gender neutral bathrooms with inclusive signage and promoting language that allows people to access bathrooms that align with their gender identity.
- Using UHC 6E
- Meeting with Dean Roy soon and should discuss with facilities to see if there is a way to update signage. After meeting with Dean Roy, they will meet with facilities.
- Hypothetically, if someone were uncomfortable with a gender neutral bathroom what is the way to address that
 - If it came down to a discussion of personal preference, then they can elect to use another bathroom.

6:25 PM – Old Business (15 Minutes)

1. [Discussion] Email Listserv Update- Tech Committee and BSO President (10 min)

- Individuals can no longer send emails to classes. Now they must be sent from a designated email that has unique permission to send mass emails.
- There are two senate emails, which one do we send from?
 - Depending on what it is, for mass communications from the senate email most of them can be done without a vote.
 - Certain topics need a vote but not things like merch.
- External committees need to know how to use the email address
- Does OSR have their own email?
 - They do not, they can use senate email if needed. As of now, the constitution allows anyone to use the senate email if they ask for permission.
- There is still some changes regarding transitions from BSO organizations

2. [Discussion] Senate fridge clean-out update (5 min)

- Used to be put specimens and food in the same fridges, this was changed to student spaces with ONLY food.
- Facilities no longer allow fridges since students or facilities are not allowed to clean them up.
- "There is no need to have fridges if students are required to clean them"
- There are microwaves near every fridge
- Knowing that there are microwaves and fridges near hospitals has been very useful for people who have to be on campus for prolonged periods of time.
- How would we promote the fridges
- They currently moved all the fridges in the Scott cafe and they have the game room fridges and 3rd floor fridges.
- Facilities cannot clean fridges based on their unionized contract.
- Two volunteers after each senate meeting to clean out the fridges with the trash.
- Motion to go over Deshawn and talk directly to Dean Sakr regarding this issue to see what can be done.
 - Motion passed unanimously.

6:40 PM – Internal & External & Ad Hoc Committee Reports (20 min)

1. [Discussion] Curriculum External Committee Report (5 min)

- Scholarly concentrations

- What will make the scholarly concentrations beneficial for students?
- There is no official indicator that you participated in the program at Wayne and Dr. Baker wants to change that.
- What sort of incentives can be provided regarding the scholarly concentrations and the next step is to start a group that is convened by students to determine which distinctions are best.
- As of now, there is no good idea of what exactly is offered by this scholarly concentration and there is no current direction.
- Compile a list of mentors that are good for specific scholarly concentrations since we do not have one as of now.
- Scholarly concentrations were advertised pretty heavily during admissions and there is nothing behind it.
- New ad-hoc was motioned to create a scholarly concentrations ad-hoc which aims to create a group of students who provide perspectives on scholarly concentrations and what to get out of them in order to support the development of a curriculum which will last until the next executive election.
